Citing Reference Sources

Library 10 – Information Competency

In this presentation you will learn:

- How to cite a reference book
- How to enter information into NoodleTools for reference sources

How to cite a reference book

1. Is the information written for this book or was it originally published in another source?
   - If it is written for this book, is there an author? If so, who is the author?
   - If it was originally published in another source, what is the original citation information?

2. What are the page numbers for the entry or article?

3. What is the citation information for the reference book?
Gathering the citation information

Entry/Title: Cavendish, Thomas
Author: John Ferguson
Page Number: 109
Book Title: The Encyclopedia Americana
Edition: International
